[DC (spoken)]

In order to keep me, this is what you gotta do
You gotta look at the bigger picture of what you need to
do
I don't want the material things, all I want is me and you
So just follow you heart, and it'll tell you what to do

[Matthew Marsden & DC]

Everybody's high on consolation
Everybody's trying to tell me what is right for me, yeah
I need a drink and a quick decision
Now it's up to me oh, what will be

Chorus:

She's gone, owha, owha
We've gotta learn how to face it
But she's gone, owha, owha
I'd pay the devil to replace her
She's gone, owha, what went wrong?

Get up in the morning, look in the mirror
I'm worn like a toothbrush hanging in the stand yeah
My face ain't looking any younger
Now I can see love's taken her toll on me

CHORUS

I think I spent eternity in the city
Let the carbon monoxide, choke my thoughts away,
yeah
The pretty bodies help desolve her memory
They could never be what she was to me

CHORUS

(repeat/fade out)
