Feel the hands of a monster wrap around your skin, rib cage, and chest cavity.

Will lay on the ground as your innards spread the word of a lifeless hole that you were spawned out of.

Ripped apart by the Juggernaut of fornication  
Your flesh will tear.

Feel the cold moisture under his fingernails.

Will scratch away your scalp.

As he grips around the back of your neck and rips out your spine from the tailbone to the skull.

Ripped apart by the Juggernaut of fornication.  
Your flesh will tear.

Ripped apart by the Juggernaut.
