Right now hurts more than life  
and iÂ'd never wish it back  
it seems the changes that we made weren't the same  
being alone and the only rider  
sometimes makes me cry  
at night i spend alot of time cursing you  
i thought i could be the one  
i thought i was the sun  
but now you find out  
that there's a difference when you close your eyes to  
whatÂ's the truth  
whatÂ's so different now then it was before  
would you find time to think of me if didnÂ't use that  
much of you energy  
being alone and the only rider

sometimes makes me cry  
at night i spend alot of time cursing you  
i thought i could be the one  
i thought i was the sun  
but now i know that i donÂ't mean.. anything.. anything  
to you  
when i friend becomes a shadow  
its hard to see him in the light..  
when a friend becomes a shadow, its hard to see him  
in the light  
when my friend became a shadow, its hard to see him  
in the light  
i see my friend became a shadow...  
what happened to being my boy?
