It's written with your name on it
It's written
It's written with your name on it
It's written
The late love is one we all stand by
Mirror images of lead bullet in your eyes

Reflection in your eyes speaks gentle to me
Our loves eulogy
It was only a game that you wanted to play
I wont be the same

Say goodbye
Say goodbye to all that you hold

I kneel down to kiss you
But you wanted to die in your own arms

Reflection in your eyes speaks gently
Our loves eulogy
It was only a game that you wanted to play
I wont be the same

You were the one to call me hopeless
You were the one to call me dear

Standing side by side lives full of fear
Standing side by side
