I feel it taking over everything inside of me
And I'm losing control
Weakness in my chest

My heart stops beating
Flat lined and I'm in between
Everything is tied to me
I feel it take, taking over

This is my struggle
This is emptiness
Closer and closer again
I feel it happening

Holding fast to the hands of grace
I know you're stronger inside,
Stronger than me
Hope walks backwards
My thoughts in reverse

This is my struggle
This is emptiness
Closer and closer again
I feel it happening

Scream for me, I'll hear your voice
My heart knows no other
