Don't become
Don't become
The thing you hated
The thing you hated
The thing you hated

Don't become
Don't become
The thing you hated
The thing you hated
The thing you hated

Suns rise and suns go down again
Open your Strathcona doors,
Let them in, let them in,
Let them in, let them in, let them in,

Let them in, let them in, let them in, let them in
Let them in, let them in, let them in, let them in, let
them in, let them in, let them in, let them in, let them in,
let them in

Don't become
Don't become
The thing you hated
The thing you hated
The thing you hated
