[Instrumental]

Onward to Arktoga

Onward to Arktoga

Onward to Arktoga

I am the son of this creature

I am the son of a world at it's loss

I am the lonely mans growl

I am the lonely wolves howl

I am the son of this future

I am the son of a world at it's loss

We are watching civilization, falling to it's knees

We are watching civilization, falling to it's knees

This is a story of a lost age

The lost knoll

Hail the coming of a new age

If we survive

We are watching civilization, falling to it's knees
