This patriotic picture
Seems to be so real
Saviour's fighting
For the real big deal

Imposing heroes
Rescuing our holy planet
Illusive wartime
Propaganda gadget?

Freedom denied
Campaign of pride
Paragons made on the screen
Bloody war regime

Frustrating to foresee
Deceiving gutter policy
Spreading hate and rage
Desecrators of the new age

All they do is fucking betray
Submission is all they can pray
Heroes of the front page
Desecrators of the new age

Nice entertainment
Is all you can you say?
This blood and sorrow
Is not a wordplay
