I - am a ready die  
The world won't miss me  
You wanna know why?  
Humanity - is out of control  
Why should I stay and play my lousy role?

I - can't stand the pain  
The script is written  
Don't wanna remain  
Now - the time is right  
Won't be too difficult  
To give up the last fight

Fear of the moment  
My world is a maze with a dead end  
Fear of the moment  
The will to live is hard to defend

If I - would pass away  
Would they ever miss me  
Maybe just for one day?  
If I - would have real friends  
The dead end would make no fucking sense

This pain is shredding - rewind!  
The sense of a free mind

I - I feel the season is right  
To attract attention and stop the fight  
Why - you wanna know why?  
My time isn't up  
I'm not ready to die!!!
