A decision-a moment in time  
Will destroy your life or make it mine  
Realize that every second will count  
In a world that's in it's final round  
-in it's final round!

Plan your future for what reason?

Soon there will be dying season  
We take control back from Satan's host  
Or do you believe in the holy ghost?

When the society is in pledge  
It's always a dance on the razors edge  
History proofs we need a collapse  
To stop the lunacy of a relapse

We need martyrs - willing to die for a goal  
We need avengers-a scare off patrol

Riot squad-unleash the dogs of war  
Riot squad - a warning they can't ignore  
Riot squad-unleash the dogs of war  
Riot squad!

The face will be ugly when it's time to go  
No one will believe it's the final show

If there's no fear for the consequences  
There will be no more safety fences

We need martyrs - willing to die for a goal  
We need avengers - a scare off patrol

Riot squad - unleash the dogs of war  
Riot squad - a warning they can't ignore  
Riot squad - unleash the dogs of war  
Riot squad!

If nobody shows them the boundary lines - despising  
They will continue to rule like swine - uprising

The dark cloud of compliance need to become -  
despising  
A wave of vengeance cause we are second to none -  
uprising  
Decision - a moment in time  
Will destroy your life or make it mine  
Realize that every second will count  
In world that's in it's final round

We need martyrs - willing to die for a goal  
We need avengers - a scare off patrol

Riot squad-unleash the dogs of war  
Riot squad - a warning they can't ignore  
Riot squad-unleash the dogs of war  
Riot squad!
