It's inside my brain  
It drives me insane  
It's eating me alive  
Into the pits of black  
A faithless payback?  
Evil twisted mind!

Twisted reality  
Makes me feel low  
Blood driven infinity  
Welcome to the freak show!

The symphony - is killing me...  
The symphony  
The savage symphony of terror

Narrow downright lad  
Voices in my head  
Strapped and buried  
Killing deep dark hole  
Burning lonely soul?  
Prohibition is your foe!!!

To fate or to remain, a fatal part of the game  
Would it change your role, if nirvana's just a dark hole?
