The Chosen Ones

Speculations, rumours or lies?  
The circle of blood and force  
Under the seal of secrecy  
Ritual acts - no remorse

Call them: skull and bones  
Scroll and key  
Call them: wolf's head  
Book and snake

They rob - spread fear - they swat  
They lie - oppress - they garrot  
The chosen ones - the slaughter mob  
They rob - spread fear - they swat  
They lie - oppress - they garrot  
The chosen ones - the slaughter mob

Bonemen of secret societies  
The hall of fame and the rich  
Domination without varieties  
Legal aggression - to go off without a hitch

Call them: skull and bones  
Scroll and key  
Call them: wolf's head  
Book and snake

Conquering fear - the attainment of power by killing  
The end is near - and if you're not willing?

The slaughter seems to be teachable  
The dignity of men is unimpeachable

Speculations, rumours or lies?  
Conspiracy theories - desperate cries?  
Missuse of power doesn't pay?  
The network of lies rules us all - runaway!
