

Destruction

"United By Hatred"

Visit "[United By Hatred](#)" on MotoLyrics.com

The Roman army is marching again
The empire is growing
An all destroying war machine
That's rolling out on the land

Children out of victory
Across the river Rhine
Once this marching warriors
Are running into death

The people of the land they suppress
Were born with the free and wild spirit
Slavery they cannot bear
Rome's legions are charged to death

The whole German tribes are standing together
Hatred is ruling their brains
Marching out to fight for their freedom
Marching out to destroy Romes pride

United by hatred
There's only freedom or death
United by hatred
Killing all invaders till the ground's getting red

The whole Roman army
Was killed in one day
None of the soldiers survived
The battlefield looked like a slaughterhouse
Rome now your fall has begun

United by hatred
There's only freedom or death
United by hatred
Killing all invaders, till the ground's getting red
