It knocks at the door  
No one's been there before  
Questions and fear  
The big change is near

Can we read the signs about mankind's down fall?  
Prophecy of truth millennium scares our youth  
Will the forecasts prove what old legends did tell?  
In the decade of pain, no one will remain

Centuries ago  
Some wish man did know  
About our spell  
We'll all go to hell

In the 7th month 1999  
The king of terror will start his death machine  
The 3rd anti-Christ will turn sun into darkness  
His domain will be creeping success

World domination of pain  
(World domination of pain)  
World domination of pain  
(World domination of pain)

Desperate eyes  
Watch the burning skies  
Killing machines  
Death bringing dreams

Centuries ago  
Some wish man did know  
About our spell  
We'll all go to hell

In the 7th month 1999  
The king of terror will start his death machine  
The 3rd anti-Christ will turn sun into darkness  
His domain will be creeping success

World domination of pain  
(World domination of pain)

World domination of pain  
(World domination of pain)

One thousand years of wars  
Who knows what's the fucking cause  
A world domination of pain  
The millennium of the insane

World domination of pain  
(World domination of pain)  
World domination of pain  
(World domination of pain)

World domination of pain  
(World domination of pain)  
World domination of pain  
(World)

Domination  
(Domination)  
Domination  
(Domination)  
Domination  
(Domination)  
Domination  
(Domination)  
Pain
