"Go Into The Water"

Visit "[Go Into The Water](#)" on MotoLyrics.com

We call out to the beasts of the sea to come forth and
join us, this night is yours
Because, one day we will all be with you in the black
and deep
One day we will all go into the water

Go into the water
Live there die there
Live there die

We reject our earthly fires
Gone are days of land empires
Lungs transform to take in water
Cloaked in scales we swim and swim home

We are alive, and we'll metamorphasize
And we'll sink as we devolve back to beasts
Our home is down here, and we've known this for years
We must conquer from the sea, we build an army with
water steeds

We'll rise, from our depths down below
Release yourselves, drown with me
We will conquer land with water

Gone are days of land empires
Lungs transform to take in water
Cloaked in scales we swim and swim home
We swim home
We swim home
