Scream to me, make me see why you are  
crumbling. Build a grave one brick each day,  
the beast is rumbling. Is it way too tempting  
to rape that crying child? Is it so addictive to  
tell another lie?

Suck the space in million ways, the fools  
collision. The super rush, eternal buzz, the  
freaks affection now I'm counting snowflakes  
and the cattle herd makes my head start

spinning and my senses burn

Can you ever be forgiven for giving apathy  
a prize. Can I ever turn my other cheek when  
you kill before my eyes

I'm just a floating zombie. Don't wanna live  
your life. I need to touch some substance  
not just sugar for my mind. Now I'm counting  
snowflakes and the cattle herd makes my  
head start spinning and my senses burn
