Nations untrustworthy, room filled with gasoline
2 men striking matches so they can see
They raise their guns and dare each other play a game
of death
We call it...
Russian Roulette
One chance is all you get
Chambers loaded, you got the hammer cocked
Barrels at your head, yeah, a prayer's what you've got
Detente is undermined by the savages who lead us
blind
towards Armageddon or worse
Russian Roulette
One chance is all you get
Russian Roulette
Russian Roulette
One chance is all you get
Russian Roulette
