Can't you see we don't care about you?  
Can't you see we don't want your kind?  
We give you weapons to kill each other  
Can't you see, or are you blind?  
Vultures in the sky, flying overhead  
Vultures in the sky looking for the dead  
Vultures in your sky  
You're doing just what we want you to do  
killing off your population  
We've got you by your stupid pride  
Rewarding it with frustration  
Vultures in the sky, flying overhead  
Vultures in the sky looking for the dead  
Vultures in the sky, flying overhead  
Vultures in the sky, they're looking for the dead  
Vultures in the sky  
Vultures in the sky  
Vultures in the sky  
Vultures in the sky
