Tonight we ride on clouds of fire
We're damned by gods, our Deths conspired
We fear no mortals in these worlds
The gift we give you is your soul

Fly with us tonight

The Sky
Will Break
Black Fire
Will Wake

Fly on through the night
We built an alliance
Our numbers are strong

We gather
But we don't pray to Gods
What fools what lunatics
They must think of us

On this night we will journey
Far beyond this world
And you must know that we will never
Come back home again

But now we must fly
Beast in the night
Tragic in the sky
Battlefield in sight

Storm gathers strong
Cold Blackened flame
Tell us our future
Stories of the slain

Fire grows strong
Freezing our skin
Vision is clouded
The rain will begin

Dangerous creature (Dangerous creature)

Those that oppose us (Those that oppose us)
Raped all their power (Raped all their power)
Bartered with Warlocks (Bartered with Warlocks)
Cheated the demons (Cheated the demons)
For Ancient spells (For Ancient spells)
The blackened fire (The blackened fire)
Waits to consume us (Waits to consume us)

So now we'll say goodbye
Because tonight we die
So we say goodbye
So we'll say goodbye
We die
Tonight we ride on clouds of fire
We're damned by Gods our Deaths conspired
We fear no mortals in these worlds
The gift we give you is your soul
