Pull the plug (x8)

I drove my truck into a moving van
It was all filled up with jet fuel and
I crashed right in and explosion
Smash through the window and ripped off my
Hands

Medical team drove up and found me
Bleeding in pieces picked up off the street
Drove me into a filthy hospital
Horror experiences financially

Woke up in pain in a gown in bed
Internal hemorrhaging inside my head
I really think that I should be dead
I saw the bill and then I cry, bled

To keep me alive it was costing me
National deficit times three
There is no way to avoid this fee
Please pull the plug and kill me

It's costing too much

Pull the plug

It's costing too much

Pull the plug (x16)

Aneurism
Botulism
Epilepsy
Narcolepsy
Pull the plug

Nearsighted
Breathe lighting
Cataracts
Heart attacks
Pull the plug

Hepatitis
Bronchitis
Appendicitis
Arthritis
Pull the plug

Encephalitis
Adenitus
Mastoiditus
Capsulitus

Pull the plug now (x4)

Pay you my life instead of life support
Harvest my plasma because it's worth more
Take all my blood and my organs
Sell them to buyers over in third worlds

Burn my cadaver for some energy
Charge the patients in their misery
Such a strong quarter for the industry
Pharmaceutical fucking victory

Can't pay this price
Pull the plug
Pay with my life
Pull the plug
Say my farewell
Pull the plug
See you in Hell
I'll fucking pull the plug
