Pull The Plug
Pull The Plug
Pull The Plug
Pull The Plug
Pull The Plug
Pull The Plug
Pull The Plug
Pull The Plug

I drove my truck into a moving van
It was all filled up with jet fuel
And I crashed right in and explosion

Smash through the window and ripped off my hands
Medical team drove up and found me
Bleeding in pieces picked off the streets
Drove me into a fithly hospital
Horror experienced finacially
Woke up in pain in a gown in a bed
Internal hermornhaging inside my head

I realy think I should be dead
I saw the bill then I cry, and bled
To keep me alive its coting me national deficit times
three

There is no way to avoid this fee
please pull the plug and kill me

Pull the plug
Its costing to much
