Racing through time  
Souls pray, lead blind  
Interstellar mutilation

Comets speed forth  
Bring death for Earth time  
For your next destination

Galactic death  
Hunts  
Flies  
Pushes through time  
Space  
Di-  
Mensions  
It's seeking blood  
Flesh  
Souls  
As slaves  
To take into  
Hell  
In outer space

Advance your place  
Pay to gain grace  
Your salvation through defrayal

You will survive  
So you think  
Then bank receipts will tip the scale

Galactic death  
Hunts  
Flies  
Pushes through time  
Space  
Di-  
Mensions  
It's seeking blood  
Flesh  
Souls  
As slaves

To take into  
Hell  
In outer space

Your time is coming tonight  
You'll be killed at the speed of light  
Destiny you can't fight  
Crushed by comets  
Transmogrified

Death will bring you new life  
A slave forever on the planet of hell  
Eighty thousand years since the comet took flight  
Your destiny is pain forever

The Earth quakes  
The colored sky brings fire  
Lava sprays into the seas  
The oceans boil  
The deserts freeze

Masses flee  
Into the streets  
Meteors fly  
With a magnetized hate

Crush and take  
The human deceivers  
Fry the souls  
Of the non-believers

Smashing, killing, devouring all  
No one is saved, the chosen fall  
Run with the horde, trample the weak  
Crush the skulls of those who can't speak

Sweating, bleeding, your eyes go wide  
The Earth is ending, it's about to collide  
The clouds part, the world goes black  
The comet speeds forth for it's final attack
