Song: The Sheet that Don't Fit

Lyrics

If you only knew  
Maybe you would see  
How I forsook you  
Would for the trees

Now I am running out the door  
Now I am running out

When I comfort you  
Don't leave me alone  
Hanging neon truth  
While I am waiting by the phone

Now I am running out the door

Now I am running out

I never said we were good, I never said we were good, I  
never said we were good, I never said we were...

Interchangeable  
In the changing room  
Paranoia fuel  
It keeps me burning down

Now I am running out the door  
Now I am running out!
