All that I need is another bridge to cross
When I feel all emotions are lost
And the love of my life, is it hopelessness?

Pull myself and her,
Into a deep depression
Pull myself and her,
Out of the deep depression

May I welcome you to my obsession?

Yes, all my morbid desires are real

When you feel all the pain that I feel
And the love of my life
Is it helplessness?

Pull myself and her
Into a deep depression
Pull myself and her
Out of the deep depression

May I welcome you to my obsession?
