Took 25 years  
Of climbing these stairs  
To realise my destination  
In a world that let me down  
Funny how when a good thing's found  
We let it slide  
Like we don't need it around

By the time you figure out  
If you should be here  
Better hope I'm still around  
By the time you get in line  
To buy a seat here  
Better hope I'm still around

Took 25 years  
Of saying these prayers  
To realise that my salvation  
Would never let me down  
Funny how when a good thing's found  
We let it slide  
Take it for granted  
Like we don't need it around

(Chorus)
