-Chorus-

I need you to show me the way
Every day it's stronger and stronger
I need you in every way
What can I say to keep you satisfied?

Wandering like an aimless fool
You don't look happy, you don't look cool
Just a bad end will close you in
The lights are on and there's nobody there

-Chorus-

I need you to show me the way
Every day it's stronger and stronger
I need you in every way
What can I say to keep you satisfied?

Changing my ways and my attitude
For the selfish people who have no rules
A kind heart and a bigger smile
Is an easy march down the golden mile

-Chorus x2-

I need you to show me the way
Every day it's stronger and stronger
I need you in every way
What can I say to keep you satisfied?

Show me the way
Show me the way
Show me the way, show me the way
Show me the way, show me the way
Show me the way, show me the way

-Chorus-

I need you to show me the way
Every day it's stronger and stronger
I need you in every way
What can I say to keep you satisfied?
