Do you remember the festival
We took those drugs I never thought I'd get into that
pumpin' stuff
A thousand eyes won't recognise us
'Cause I know you and you know me
That's all you need and all I think of
I know this ain't nothing very deep but it's good fun
So don't run into the crowd
We got on there way too soon
'Cause it takes some time to get the picture
6 to 60 camera zoom oh my god I hate this mixture
Of all these crazy crazy tunes that keep on buzzin' in
my head now
I know this ain't nothing very deep but it's good fun
So don't run into the crowd
Don't run into the crowd
Don't run into the crowd
Do you remember the festival in 94 with 90 fuckups
Don't wanna meet all of your friends
The ones you like the ones you'd lock up
'Cause you're out there in the atmosphere
It makes me sick just to think about it
I know this ain't nothing very deep but it's good fun
So don't run into the crowd
Don't run into the crowd
Don't run into the crowd
Don't run into the crowd
Don't run into the crowd
