Well good evening to all my friends

I think it goes to show that the more you get, the more
you got, the more
You want some more

'Cause it's supersexy, supercool, the way they walk the
avenue
But it's a sadder day than yesterday so it kinda makes
'em superblue
Spastic Sam and Eric Drew make supermarkets
superflue
But they're just on time for the rendez-vous

I know it goes to show that the more you get, the more
you got, the more
You want some more

Some people go out and buy stuff they see in windows
I don't need no ring, no car, no watch
Baby I got all I need

I'm sure it goes to show that the more you get, the
more you got, the more
You want some more

Some people go out and buy stuff they've seen in
books
I don't need no leather jacket baby, I'm warm
When I'm with you
