What we talk about,  
When we talk about love

Talk about a shot from the hip  
And the sky above  
Talk about the glow on the lip  
What the moon's made of  
Talk about things you can't see  
When you talk about me...  
Do you talk about love?

What we talk about,  
When we talk about love

Gimme something i can touch  
Not a mystery  
Gimme something i can feel  
Not a fantasy  
Gimme something real, baby  
When you talk about love...  
Do you talk about me?  
(Choir) Get off that slumber  
Come on down get of that train  
A bend is easy to take

There's a road up ahead  
And it's not that far  
There's a road up ahead  
And it ain't that far  
Down the road you just don't know  
What it is you'll find  
Down the road, it's a fact babe,  
You might as well be blind  
It's an odyssey so please,  
When you reach that road...  
Don't leave me behind

(Choir) Get off...

Deep as the ocean  
Wide as the sea

I'm talking about low visibility...  
High as mountain  
And harder to climb

It is in what you seek  
Not in what you find

When you say things soft  
You know they ring so true  
When you say things loud  
They don't sound like you

Like it when you shake that thing  
With the finest touch  
Like it when you talk so little  
And say so much  
City girls they like to get rough  
But when you talk about love...  
They don't hold no grudge.

(Choir) Get off...
