Never one to miss out on a shebang
I threw one myself with the usual gang
Just a couple of girls
And a couple of guys
Get up, stand up, get organized

I couldn't help thinking
I'd seen it before
A human pyramid on the seventh floor
Oh, but the worst part was I knew I'd see it again
It made my heart sink in
I had a sip of my gin

Stuck in the middle
What's it all for
It's giving me so little
I want more
You and me together
We will be chasing ghosts away
You and me together
Today

It wasn't till I met you that I realized
I wasn't living in a movie but a franchise
Just a couple of changes but the same old thing
The sequel was a flop
Let the third one begin

Cause your breasts are soft and warm
It feels like being born
We're writing the plot
Playing god
Cueing sunshine, cueing storm

But now I'm stuck in the middle
What's it all for
It's giving me so little
I want more
You and me together
We will be chasing ghosts away
You and me together

Today

My heart is a trigger
You're pulling it again
If you don't make it better
Then who will
You and me we've seen it
But we haven't felt it all
So chase the ghosts away
'Til they're gone

Sunrise at the edge of my glass
Casting its hellish light over the inevitable
Future memories like truncated dailies
From the shoot of life
We've saved our lovemiles baby
We're the cabin crew of cupid's company
Chasing ghosts away
They go, they're going, they're gone!

Watch them skate over an acre of nostalgia
Slipping and sliding over the thinning ice of time
Scared of being the demon
Tired of being ignored
Cause unless you breathe them back into existence
They will be bored
Like a junkie without the snort
Like a jock without the sport
You let them run
