Little do you, the children of darkness  
Know the authority of true Lord  
You, who dare to rise against Him  
God through the ages, Creator of all

Think you've chosen your part  
As enemies of my God  
But the fallen nature of sin  
Makes every man His enemy

Lord our God, holy and righteous  
Cannot stand the filthy and impure  
Only chance to avoid His wrath  
Blood of Christ, for our sins

We do not fight against you  
You are not our enemies  
We're asking you to break through  
Deceiving darkness disease

Foreseen the end of your journey  
Not understanding to be afraid  
How pathetic that the sentenced  
Think they're marching towards victory

Think you've chosen your part  
As enemies of my God  
But the fallen nature of sin  
Makes every man His enemy

My Lord gave His life for me  
Your lord is taking yours  
My God took the victory  
Your god has lost the war

We do not fight against you  
You are not our enemies  
We're asking you to break through  
Deceiving darkness disease
