

Devastation "Deliver The Sufering"

Visit "[Deliver The Sufering](#)" on MotoLyrics.com

screams fill the night
cries fall upon deaf ears
another one dies
shattering pain life ending in tears
controlled by torture
pain and punishment are one in the same
violent circle
stakes are high when playing my game

screams fill the day
this pain you cannot escape
you have no choice
with tyranninol your mind i rape
my innocense
will constantly deceive you
to your saviour
together we can destroy ourselves
my life is evil
i bring you pain
i will deliver the sufering

once again
you feel the inner pain
terrorized
by the need for sufering
inject the venom
kiss the flesh of death
from my control
slave of pain now put to rest

your antidote
for life i have prescribed
no resistance
from inside i watch you die

my life is evil
i bring you pain
i will deliver the sufering
