music: burk, dunsmore  
lyrics: dunsmore

living alone yet unafraid to die  
a prisoner of time i not know why  
seeking life through death a deserving cause  
away from all immortal solitude

afraid to live nothing to give  
total isolation take my soul  
seeking death final breath  
termination lose control  
twisted mind violent crime  
now i'm doomed before my time

life betrayal as i fail  
set me free from this eternal hell

you live, i die  
innocent submission is the reason why  
my life, my fate  
stricken by the power left to subjugate  
i pray for infinity  
for the end of time that's all that will set me free  
last chance, final chance  
fallen victim to the future by the past

solo: burk
