Well you certainly are nice people
Yeah you certainly are nice people, nice people
Certainly are nice people
In your white ass suit and lion tattoos
In your white ass suit and lion tattoos
You've seen it all, seen it all
Pale horse licks your skin, begin
Begin, begin, begin, begin, begin
Well you certainly are, you certainly are nice people,
You certainly are nice people, nice people
In your white suit and lion tattoos
In your white suit and lion tattoos
You've seen it all, seen it all
Pale horse licks your skin
