(Obey)  
Chronic panics, xanax  
Form a mental diagram of it  
I like to watch your brain swell  
As you're doing the math  
(What is it)  
But you won't fucking solve shit

I think I'm drowning counting maybes  
I curse the ground and the sky  
That is above me debating  
Why I am now holding onto nothing

Why am I holding onto nothing

Awaiting the second cumming  
Has got me pissing with an erection  
In the wrong direction

It never was enough  
It'll never be enough  
I'll never have enough  
I fuckin' live it  
Model fuckin' citizen

It never was enough  
It'll never be enough  
I'll never have enough  
Fuck it, end it  
Go suck off the dead
