When we make it we're gonna shake this town
If they hate it we'll turn them upside down
When they see us
They'll come running out of every single door
Just to hear us
They'll listen over and over and on and on

When the last chance comes along
We better take it
Do the right dance and be strong
And then we'll make it right
Hold me darlin' one more night

They've been laughing for a long long time
When it happens, it's gonna make me smile
I've been praying
For the break to come to make them eat their words
They'll be saying, "Oh baby, we never doubted
That you'd make it work"

When the last chance comes along
We better take it
Do the right dance and be strong
And then we'll make it right
Hold me darlin' one more night
Hold me tight, hold me tight

And when I get there yeah! yeah!
Oh they'll tell everybody they're a friend of mine
And I'll forget that, oh baby
They never cared whether we lived or died

When the last chance comes along
We better take it
Do the right dance and be strong
And then we'll make it

When the last chance comes along
We better take it
Do the right dance and be strong
And then we'll make it right

Hold me darlin' one more night
Hold me
Hold me tight

When the last chance comes
Do the dance
Now hold me tight
Hold me tight
When the last chance comes
We better make it right
