My mama said never talk to strangers
And in my head I knew all the dangers
Just a girl, but something inside
Told me don't be afraid the time's right

And when you left I had to run for cover
So I took myself to many other lovers
It doesn't matter what I let them do
From everyone I learned a thing or two

And I want you to make love to me
Like you did before
We could do everything
I learned a whole lot more
Oh baby, I'm a woman now
I'm not the girl that you left behind
But we can work on it honey
'til it feels like the very first time
You lay your hands on me
I had to beg for more
Together we turn the key
Now I'm sure
You're making love to me like the very first time

Come on over here
Lose your inhibitions
I'm gonna make it clear
It's not an imposition
We'll take our time
Moving it slow
I just want you to know it's alright

Make love to me
Like you did before
We could do everything
I learned a whole lot more
Oh baby, I'm a woman now
I'm not the girl that was on your mind
But we can work on it honey
'til it feels like the very first time

Do you wanna hold me baby (first time)
Don't you wanna touch me (very first time)
Won't you make love to me

Make love to me
Like you did before
We could do everything
I learned a whole lot more
Come on baby, I'm a woman now
I'm not the girl that was on your mind
But we can work on it honey
'til it feels like the very first time
You lay your hands on me
I had to beg for more
Together we turn the key
Now I'm sure
You're making love to me like the very first time
Very first time
