My friend has my favorite teeth  
They bend backwards when she breathes and it  
whistles  
Sweetness is all sweetness was  
Bees are black eyed birds that buzz

My love has my favorite ears  
They lean forward when she hears  
Well, evil is all evil was  
Bees are blue eyed knees that buzz

And I said, ?Oh, Michigan, Michigan state  
How I'd love to live in you  
I've never been to Michigan state  
Still I want to live in you?

Oh, you can't speak without your tongue  
Don't try to drown without your lungs  
Well, my snail has my favorite slow  
Shell helps the snail still the skin lays low

And if my snail has my favorite slow  
Then my cold has my favorite snow  
But if my snail's cold and comes to a halt  
Then my sea has my favorite salt

The salt keeps the sea from feeling sweet  
And my toes have my favorite feet  
And if I sweat salt  
And the Earth sweats heat

Oh Michigan, Michigan state  
How I'd loved to live in you  
I've never been to Michigan state  
Still, I'd love to live in you, Michigan st-st-state
