She said:

"Things drop easy, come with me, take a chance and
Take my hand so you can see
Everything you know you will never have
Everything you know you want will be killed your plans"

Fill this hole inside of me
I can see the ache
This pain is killing me
Those who suffer will understand
The pain is closer, when it saw you with him

Coming down with me
Lets see what we can be
Coming down with me
Now is a chance to know how it feels to be free

I'm alone but not alone
You're after me but we're on our own
It's a trust you were bound to feel
On what you start is crumbled
I see the weakness prevail
Give or take a different extreme
The hopeless sincerity we're being lost
Or so it appears to me to be that way
I can't hold this smile
I can't hide this pain

Coming down with me
Let's see what we can be
Coming down with me
Now is a chance to know how it feels to be free

I'm in search of a second opinion
A way to escape this situation
A list of problems I write no one can read
I know this stubborn shit but we can never speak
Holding on, holding in
The ache's closer when I see you again
It's a pain I'd never trade for anything
I just run outside and guess mine is so hollow
I'm alright(2x)

Give or take a different extreme
The hopeless sincerity we're being lost
Or so it appears to me to be that way
I'm always playing with things that we'll never change

Coming down with me
Let's see what we can be
Coming down with me
Now is your chance to know how it feels to be free
So free from all this shit
I'm not gonna complain alone
And I'm used to the distance
Coming down with me
Now is the chance to know how it feels to be free
