i hear the word opportunity so many times I'm not sure
what it means to me
all importance lost in a definition that's been spread to
the masses by the age of integrity
i hear the talk about stability, i start to realize this ain't
the land of opportunity
i heard a story today about a man who had millions but
no stories to tell
climbed on top of his mountain of money & found he
was all alone
to live a life in the name of money was the opportunity
he should have blown

no shit i realize, I'm not the only one
this happens everyday, you know it happens to
everyone
i get real pissed off, & i throw my hands in the air
but i got my friends with me, so i don't care
don't tell me what i want, don't tell me what i need
don't tell me what i have or what to be taking, ill tell you
what i want
don't worry about me, I've got my opportunity
