### "Afraid Of Loving You"

Don't say I'm afraid of loving you  
You're everything I've wanted, too  
Don't say my heart was never true  
Everything I do, I do for you

You can help me  
I'm yours 'til the end of the night  
You can take me  
I swear I won't put up a fight

Play next to me and sleep awhile  
Let the hours slowly pass us by  
Whisper soft into my ear  
And promise me we'll lie forever here

You can help me  
I'm yours 'til the end of the night  
You can take me  
I swear I won't put up a fight
