High polish policy let the fools follow in line  
Religious delusions are the resolutions for a secular  
Goal  
In this symbiosis are we the spider  
In this symbiosis are we the fly  
Will there be a heaven in this sickness called  
Paradise!  
But this fuel burns our frail passion  
All doves have been killed in the gears of western  
Warbirds surgical warfare shall reassure  
The indifference of nations so pipes are  
Marching forth dividing friends into enemies  
Antagonists of neo-colonisation  
A war that incinerates the faith in reason  
Compliant through disobedience  
The kingdom set's itself ablaze  
Murder is written on the stars and the strips  
As well as it is carved into Babel's ruins  
All armies rearm for the last holy war  
And in god they trust
