The goat's whisper in wires is heard by the neglected  
Hitler's snakes are gathering in the flat rate society  
That global networks provide.  
From ashes risen into the online  
Does security exists where parents fail?

Acknowledgement is given by coloured shadows  
Their words are pistols in our children's hands  
My daughters smile is a masked time bomb  
God our lives seem so pathetic  
Every embrace feels so sterile...  
Ired childhood -pc combats for (supremacy)  
Specific mis-education to suggest  
Warmth to career replacements  
Microsoft dependency  
Desktop identity  
Observed by liberty  
At least betrayed by a backdoor tragedy  
And still they ride the data dragon  
And still education lies in the bossom of  
The fucking kkk
