When he walked into the room I swore that I would call
him soon
I never did he thought I dissed him and I've never even
kissed him
Not enough hours in the day they always seem to blow
away
Can never seem to get things done, but I gotta keep on
keepin' on

I tried to get to work today and something happened
on the way
An accident, an earthquake tremor, a friend I haven't
seen forever
It's not my fault that I was late and all the trains they
were delayed
And I've been workin' here too long, but I gotta keep on
keepin' on

You make me do the things I do
And all the hell you put me through
Without you I don't see the way I do
And that's why I love you...

Can't catch a cab to save my ass and my car just ran
out of gas
I forgot my money at home, my keys are sittin' by the
phone
My body ached when I woke up, I heard my favorite
band broke up
Post office line is way too long, but I gotta keep on
keepin' on

You make me do the things I do
And all the hell you put me through
Without you I don't see the way I do
And that's why I love you...

When I walked into the room I swore that I would clean
it soon
I stand there pulling out my hair, got clothes and
papers everywhere
Not enough hours in the day they always seem to blow

away

Can never seem to get things done, but I gotta keep on
keepin' on.
