Thirty third degree on the corner of Quit street and  
Temptation avenue  
On the road to redemption, outside of heaven  
Pride can be dangerous and you knew  
Method of execution, length of duration, at what cost?

Forgiveness is a six gun, teach me how to shoot  
The truth is like a moving target, forgiveness is a six  
gun

The streets from the start have been filled with doubt  
and they are set free  
You needed someone to carry you fighting and  
counting the days  
The error of your ways  
Methods of execution, length of duration, at what cost?

Forgiveness is a six gun, teach me how to shoot  
The truth is like a moving target, forgiveness is a six  
gun  
Forgiveness is a six gun

In cold blood, dressed in black  
Tombstones and tumbleweeds  
Left the dead behind, watched 'em falling  
Let Smith and Wesson do the motherfucking talking

Dust in my eyes, dust in the street  
Shotguns and broken dreams  
Now we left the dead behind, watched 'em falling  
Let the Smith and Wesson do the motherfucking talking  
now

Forgiveness is a six gun, teach me how to shoot  
The truth is like a moving target, forgiveness is a six  
gun  
There is no forgiveness, there is no forgiveness  
There is no forgiveness, there is no forgiveness
