Every time you speak my name
(My name, my name)
My image it just burns away
(away, away)
Everytime you speak my name
(My name, my name)
My image it just, it just, it just BURNS AWAY, burns
away
burns away, burns away, away, away, away
(Give me that)

I could care less than for your grandiosity
I had to skin the cat for curiosity
I could care less than for your sickening pompous ways
Every time you speak my name, my image burns away

I could care less
I could care less
I could care less
I could care less

Don't you know our lives are on trial now
And if we lose were going straight to hell (2x)

(Give me that)

You must excuse me i'm just really not myself
woke up today inside, inside of someone else
I could care less than for your sickening pompous ways
(Give me that)

Every time you speak my name my image burns away

(Give me that)
I could care less
I could care less
I could care less
(Give me that)
I could care less
I could care less

Don't you know our lives are on trial now

And if we lose were going straight to hell (2x)

Straight to hell

Straight to hell

Straight to hell

Straight to hell

Straight to hell

Might go straight to hell

I could care less (straight to hell) x 3
