Fear in the dark.
She's not there anymore.
Gone without words.
I feel so empty.

I needn't you.
You're nothing to me,
Not important at all.
Just go leave me alone in the dark.
[X2]

I walk the street
With her in my dreams
Not she is gone
With somebody else

I needn't you.
You're nothing to me,
Not important at all.
Just go leave me alone in the dark.
[X2]

Why did she go away
So easily
Why doesn't she care
Why does she hurt me always
Why did she go away
So easily
Why doesn't she care
Why does she hurt me always

I needn't you.
You're nothing to me,
Not important at all.
Just go leave me alone in the dark.
