We did go away and came back again.  
But what's that what we saw?  
Change that's what we saw is been good in times  
before.  
However now:  
Is nothing's like before.  
Nothing's like before.  
Nothing's like before.  
Nothing's like before.

Everything was changing.  
Nobody is still there.  
What have we to do now?

Is nothing's like before.  
Nothing's like before.  
Nothing's like before.  
Nothing's like before.

How was it able to be happen  
Anyone's going his own ways  
Anyone's going alone.

Is nothing's like before.  
Nothing's like before.  
Nothing's like before.  
Nothing's like before.
