I pick you up  
I look you up and down  
You so fine  
In my mind I'm sayin'  
Now how can I make this ho mine  
I got the tank on F  
I got a bag full of herb  
Your favorite drink in the holder  
The restaurant song reserved  
They got smothered shit  
And other shit I can't even pronounce  
But I can count  
I know the weed I have is less than an ounce  
We ride and we talk  
We joke and we laugh  
And we drinkin'  
While I'm thinkin'  
bout pokin' that ass  
And at last  
We pulled up in front of  
The restaurant-a  
Ah yea Benihanas  
Chose a table by the window  
So we can look at the stars and shit  
He made our plate  
We ate, got back in the car and dipped  
But on the way home I tried to grab your hand and put  
it on my bone  
You pulled back and said "go on boy"

[Chorus]

Girl, this dick is so clean  
This dick is so clean that you can boil it in some collard  
greens  
Girl, this dick is so clean  
Girl, this dick is so clean that you can serve it with  
some lima beans  
This dick is so clean  
This dick is so clean that you can boil it in some collard  
greens  
Girl this dick is so clean

It'll probably go good with your broccoli and cheese

Tell me why, oh why  
You won't let me get between them thighs  
Tell me when  
Ya gonna open up and let me in  
You got all kind of excuses  
And you used to niggas trippin'  
They just want your body  
I know that ain't what you givin'  
On the first date or whatever  
But it's the third time we been together  
And it seems like girl you're forever  
You're forever mine  
Aww because it gets better with time  
Oh girl  
You got what I want  
I got what you need  
At least let me smell it  
Just get a whiff of that pussy  
You be thinkin' I stick this dick up in hos at random  
Come on girl that ain't how I handle 'em  
I mind my manners  
And uh

[Chorus]

I gave you roses  
Even chocolate candy  
Tell me what else should I do to get you out of them  
panties  
Spend time, I tried to  
Just count the things that I do  
A couple of dollars for your ass  
Hold that girl, I got you  
And I'm even willing to pump it  
You need a boost I'll jump it  
I'll use my hand to unscrew your off-hand(?) and jump  
it myself  
I'd like to help you with your sexual needs  
And if I put this thing in you girl  
I bet you will see  
That it's good  
If down the line you ever find a disease  
And don't know who gave you the shit  
You didn't get it from me  
'cause see

[Chorus]
