[Chorus]

I can't wait  
I can't wait 'til you get old enough  
I'm being patient  
But I can't wait 'til you get old enough  
So I can cutcha'  
So I can cutcha' up

You look so young  
But still look good  
The way the sun is shining on you  
And I would if I could  
Try to take a little piece of you and break you off  
But you're not quite ready  
I got to hold steady  
And try to control myself  
Cause if I start on you now there'll be nothing left  
I can't help it  
I guess it's just the way you smell  
You're growing up fast and quite well  
You're looking kind of thirsty  
Let me give you some water  
But not too much  
You know what? We oughtta  
Just move  
And get away from it all  
Cause if people see us together  
You know that they'll call the laws  
And try to keep us apart  
It's you and me from the start  
You got the key to my heart  
You taste sweet yet tart  
When I hit it  
But right now I can't get it  
But when you come of age  
We'll go our separate ways

[Chorus]

Some folks think I ain't right  
They try to label me

But I can't wait to lay you on the table see  
When I'm in the mood I think of you  
Wishing that I can hold you while I drink a brew  
It's true a love like this never exists long  
As soon as you get grown  
I know you're gonna get gone  
In the wind somewhere  
But that's how life goes  
But for now let's take picture together  
uhh.. nice pose  
I'm tired of hiding  
I want everybody to see  
How we get along so happily  
You and me  
Need to go somewhere where the penalty lessens  
When they something like you in my possession  
I could leave you alone  
But I wouldn't feel right  
And if they lock me up for it  
We'll be still tight  
I know you can't write  
But I'll be back  
To pull you by the hairs and lay you in the sack

[Chorus]

[Fading]

Yeah... but you know I ain't going nowhere  
I'll be right here you know  
Shit, I like the way you make me feel  
Ain't nuttin' wrong with spending a little time, energy  
I gotta make sure that you're well nourished  
Yeah... you 'bout ready  
Let's get in the closet, I'm gonna turn the lights down  
I'm gonna turn them off  
And turn you upside down
